Second Section
- We created our group Trello report and created a structure for our tasks
- Familiarize ourselves with each other.
- Establish group rules and goals.
- We have trouble with how to proceed with programming.

Third Section
- Work out a blueprint of what it would look like but focus primarily on the first sprint.
- Do research on other kinds of Q&A forums for inspiration.
- Start basic functions with flask for Q&A forum

Fourth Section
- What type of timeline should we maintain?
- When should we start programming?
- Will we be learning the material simultaneously or should we learn at our own pace based on the functionalities we'd like to incorporate?
- Ask about project status report times
